PROFILE

First-year engineering student at IERT, Prayagraj, self-taught in HTML, CSS, JavaScript and Python. Currently building Smiley, a real-time WebSocket-powered stranger-chat application, handling the complete frontend. Comfortable turning designs into responsive, interactive web pages.

EDUCATION

B.Tech (1st Year) — IERT, Prayagraj	CGPA: 7.435
Class XII	76.20%
Class X	84.83%

SKILLS

HTML · CSS · JavaScript · Python · WebSockets · Git & GitHub · Responsive Design

PROJECTS

Smiley — Real-Time Stranger Chat (Omegle-style)

Live: smiley-x3xp.onrender.com | Code: github.com/Sumit97923

Built the complete frontend for a random one-on-one chat app and integrated it with a WebSocket server for instant, persistent-connection messaging with no page refresh or polling.
